OUR COMPANY

Total Building & Property Management Pty Ltd (TBPM) is a Sydney-based building management company specialising in residential, commercial, and mixed-use strata buildings. The company provides professional building management services focused on efficient operations, preventative maintenance, and effective contractor coordination, along with cleaning, gardening, and concierge services. TBPM works closely with strata managers, owners corporations, building committees, contractors, and residents to ensure buildings are maintained safely, efficiently, and to a high professional standard.

TBPM was founded by Ajit and Steve, who bring extensive experience in building management and construction. Ajit has over 10 years of experience managing residential and mixed-use buildings across Sydney, with expertise in building operations, contractor coordination, and preventative maintenance. Steve brings more than 20 years of experience as a specialist builder involved in residential developments and remedial works, providing valuable technical knowledge in building structures and long-term asset maintenance.

Our mission is to deliver professional, reliable, and proactive building management services that protect property assets and enhance resident satisfaction. Our vision is to become one of Sydney's most trusted building management providers through consistent service quality and strong long-term client relationships.

OUR SERVICES AT A GLANCE

FEE PROPOSAL AND SCOPE OF SERVICES

Strata Plan 6215

FEE PROPOSAL

The fees set out below cover the service deliverables required to manage your property efficiently, and account for all the standard daily, monthly and yearly tasks needed to administer the owners corporation in line with the law. The fee also allows for staff annual leave, personal leave and public holiday pay.

We have reviewed the registered strata plan and note there are 40 registered residential lots.

Services	Cost per year
Building Management - Part-Time - 5 hrs per week - Hybrid role with once a month site visit	\$15,950.00 + GST (\$306.73 + GST/ Per Week)
Building Management Software - MYBOS	Included in the above cost
Dedicated building Website with its own Domain name (eg: windsor.com.au)	Included in the above cost

Above prices are excluding GST

Your Building Snapshot

Stone Haven (SP6215) is a residential strata scheme registered in 1972: 40 lots across three walk-up, three-storey blocks (A, B and C) around a shared central garden, mostly two-bedroom with a few four-bedroom and one-bedroom units, no lift.

The blocks have no intercom or access control. Blocks A and B have ground-level resident parking with separate street entries and exits, Block C's ground-floor units open onto private courtyards, and there is on-site visitor parking. The site is connected to the NBN.

Windows are timber, with about half replaced in 2023 and the rest still to do. The roof membrane has been renewed. Each block has its own fire panel in the foyer and anchor points for working at height. The scheme has an established plumber and electrician engaged, a planned fire upgrade underway with the Annual Fire Safety Statement current, and current services of weekly cleaning, fortnightly bin cleaning and fortnightly gardening, with waste under North Sydney Council.

Ongoing issues:

1. Drainage. The site sits at the low point of the surrounding land, so water collects here. The immediate concern.
2. Brush turkeys active in the communal garden.
3. Bitumen driveway lifting on tree roots – a trip and vehicle hazard.
4. Non-residents using the visitor parking.

Upcoming Projects:

1. Replacement of the remaining timber windows, matched to the 2023 work.
2. Neighbouring retaining wall rebuild, with council and adjoining-owner liaison.
3. Drainage remediation to protect the ground-floor units and footings.
4. Window cleaning and pressure washing.

T B P M Value Add To Building

- **Repairs get actioned swiftly.** A resident reports a fault on common property; we take it from there: log it, book the right trade, and follow the job to completion. No committee member is chasing trades or taking calls at 9 pm, and swift action for the owners. One point and no additional charges for issuing work orders or quote requests.
- **Less friction between neighbours.** We walk residents through the by-laws and how the building actually works, so the usual flashpoints- parking, noise, rubbish and bin misuse- get sorted quietly instead of turning up as agenda items.
- **Major works handled end to end.** The remaining windows, drainage management and driveway repair will need scoping, quotes and, for the drainage, council liaison. We run that process and put like-for-like quotes in front of the committee so owners can see why each contractor was chosen.
- **Compliance stays current.** The Annual Fire Safety Statement, the fire upgrade program and the ten-year capital works fund plan are tracked and diarised, so nothing lapses and the levies are set against what the building actually faces.
- **A committee that is never in the dark.** Owners get regular updates on where each project sits, what has been spent and what is next. If a decision is ever questioned, the record is already there.
- **One point of contact for the whole site.** Residents, trades, and local council all come through us. Because someone is actually watching the building, small problems get caught before they become expensive ones.

Building Management Team Flow Chart

Director/ General Manager

- 7 days available on email
- 24/7 available on phone for urgent and reporting matters
- Escalation point for operational issues the on-site BM can't resolve
- Works with on-site BM for the building
- Has access to the on-site building email and work activities and reports for oversight

On-site full-Time/ Part-Time Building manager (5 days a week)

- 24/7 available on the phone for urgent matters
 - Dedicated email for the BM to delegate the work
 - Experience in multi-strata plan mixed-use buildings •
- Works on the building's day-to-day operations
- Point of contact for the residents and reporting matter
 - Inspections of the areas as required

Support Team (Assistant to BM)

- 5 days a week
 - A dedicated email will be set up for the buildings
 - Office back support for the BM
 - General information emails, bookings email and other
- ad hoc as requested by the BM will be handled by the Office Admin Team

Scope of Building Management Services

1. Establishment of Services (Initial Setup)

At the commencement of services, the Building Management Team will undertake the following:

- Provide a dedicated Building Manager and support team with 24/7 phone and email availability.
- Establish a building email address and communication system for residents.
- Set up Quarterly Feedback Meetings with the Owners Corporation and provide operational recommendations.
- Establish an Asset Register and Preventive Maintenance Schedule within the first month.
- Conduct an initial energy and cost-saving audit of the building.
- Collect Building Information for the Building's Website.

2. Building Operations, Management & Reporting

The Building Manager will oversee the day-to-day management of the property, including:

- Oversee daily building operations and common property management.
- Conduct regular inspections of common areas, including plant rooms, lifts, rooftops, gardens, garbage rooms, fire stairs, and parking areas.
- Act as the primary point of contact for residents, contractors, and stakeholders.
- Maintain building documentation, plans, manuals, and records.
- Coordinate defect rectification, maintenance works, and renovation applications.
- Manage inventory, materials, and equipment.

Communication & Resident Services

- Distribute building notices, alerts, and emergency communications.
- Maintain building signage and noticeboards.
- Provide professional customer service and resident support.

Scope of Building Management Services

Contractor & Supplier Management

- Coordinate and supervise cleaning, security, gardening, and maintenance contractors.
- Ensure contractors maintain valid licences, insurances, and SWMS documentation.
- Manage contractor works and conduct performance reviews.

Compliance, Safety & Systems

- Manage Annual Fire Safety Statement (AFSS) requirements.
- Implement and maintain emergency procedures and safety systems.
- Conduct WHS inspections, risk assessments, and incident reporting.
- Liaise with the Strata Manager and Strata Committee on building matters.

By-Law & Site Management

- Assist with the enforcement of building by-laws and breach notices where required.
- Monitor illegal parking and misuse of common property.
- Manage waste collection, resident move-in/move-out processes, and inductions.
- Coordinate the preventative maintenance program and building projects.

Security & Access Control

- Manage building security systems, keys, swipes, fobs, and remotes.
- Maintain security registers and conduct access audits.
- Liaise with authorities regarding security issues where required.

Budget, Reporting & Meetings

- Monitor building expenditure and approve invoices where authorised.
- Provide monthly building management reports and weekly snapshot reports.
- Attend Strata Committee Meetings and Annual General Meetings when required.

Thank You for the
Opportunity.
